

## Call for Papers to Session S20078

XVIIth World Economic History Congress, Kyoto, Japan, 3-7 August 2015

### ■ Session Title

Title : **Feudalism and the market. Explaining economic growth in the Middle Ages**

### ■ Call for Papers

Deadline of the Call : date 15 month March year 2015

Guideline of the Call ( title, abstract, full papers, limit of words, etc. ) :

In responding to this call, please provide a proposed title and an abstract of approximately 1000 words. If your paper is accepted we anticipate that a 5,000 word version of your paper will be pre-circulated by mid-July at the latest and a short 7-8 minute summary presented at the session in Kyoto.

Remarks (number of expected acceptances, intent, purpose, etc. ) :

In order to give sufficient time for fruitful discussion at the session, the number of papers accepted for the session will be limited to a maximum of 12.

As set out in the session details, the session aims to discuss economic growth in the late Middle Ages and the driving forces behind it, with both empirical (measuring growth and setting its chronologies) and theoretical or interpretative contributions. Papers offering a comparative perspective, and/or perspectives upon regions as yet little studied are especially welcome.

Antoni Furio, Universitat de València

Phillipp Schofield, Aberystwyth University
